

**DAY-TO-DAY™**  
Height-Adjustable Tables

**AIS**

# A STANDING OVATION

Bodies are designed to move—and AIS height-adjustable tables are designed to easily move with them. AIS height-adjustable tables enhance performance by supporting workers in healthy posture changes throughout the day.

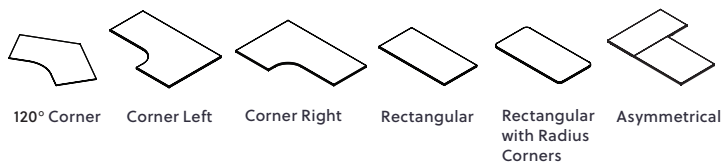

Electronic controls allow workers to transition from sitting to standing with the touch of a button, bringing tremendous flexibility and ergonomic advantages to the workspace.

## Integrate across AIS lines

Dimensions and finishes fit seamlessly into any AIS environment.

- Electronic adjustment with soft start/stop and memory presets.
- Travel speed: 1.5" per second.
- Dual motors (one in each leg, three motors if three leg configuration).
- Soft collision technology that halts and retracts when table surface meets resistance.
- 21.54" to 47.80" height adjustment range.
- Two leg configurations have a lifting capacity of 250 lbs.
- Three leg configurations have a lifting capacity of 350 lbs.
- Three-stage legs.
- 42.25" to 74" adjustable base width.
- Adjustable leveling glides.
- Height-adjustable base kits may be purchased separately.

## Statement of Line

## Finish Options

Radius Corners option

## Laminates
