Stay a While

Fully Upholstered Shell

Fully upholstered shell for a soft, cohesive experience

Tailored Comfort

Mid-back and low-back options for varied support

Built-in Lumbar

Integrated support for posture and all-day ease

Refined Silhouette

Clean lines with softened winged edges for comfort

Sculpted Enclosure

Arms shaped to gently support and surround

Dual-tone Expression

Seat and shell upholstery can contrast or complement

Design Flexibility

Multiple base options offer different forms for each setting

Structured at its core, softened by design.

It's this balance that defines
Ardyn—refined yet relaxed,
sculptural yet comfortable.
As considered in feel as it is
in form.

A unified expression

Designed as a family, Ardyn shares a unified visual language while offering mid- and low-back options that shift posture and presence from open and approachable to more supportive.

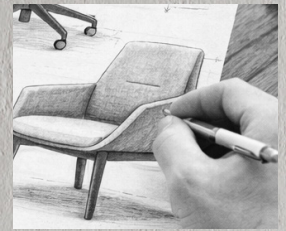

THOUGHTFULLY
COMPOSED

Together, the Ardyn family forms a cohesive collection that allows designers to create rhythm within a space, while maintaining consistency in look and feel.

AIS STUDIO

At AIS, great design is collaborative—our design and engineering team blends insight, creativity, and precision to create intuitive, durable solutions for real spaces that support how people truly work.

CALM YET CONFIDENT
Ardyn brings comfort and
composure into balance,
adding ease to the spaces
we move through every day.

Ardyn began as a desire to soften the experience of sitting. In contrast to hard edges and constant motion, it offers a quiet sense of retreat—inviting people to pause, settle in, and exhale.
