

DEVENS™

Side Chair

AIS

DEVENS SIDE CHAIR

The Devens Side Chair is a natural complement to both the Devens Task Chair and the Devens Stool. This cantilevered stacking chair provides an elegant and light look whether used in a private office as guest seating or by itself in a meeting room. The curved mesh back mimics the contour of the spine for added comfort. Chairs can be stacked up to four high when not in use.

Add a pop of color with a range of seat upholstery options offering your choice of black or grey mesh back. Seat is available with a variety of coordinated AIS Graded upholsteries (standard seating lead time.) The chair is also offered in two express models: black and grey mesh with coordinating express seat upholstery.

Devens Seating Family: Stool, Task and Side Chair

Features & Options

- Express Models (three-day ship) offered in grey mesh with grey seat upholstery and black mesh with black seat upholstery. Black or grey armcaps will align with back mesh color selection
