

PET Partial Modesty Molded Bracket

SCREENS

Designed to improve both functionality and aesthetics, the PET Partial Modesty Molded Bracket provides a stronger, more refined solution for mounting PET modesty and privacy panels.

Bracket is available in black only.
Optional cover is available in standard AIS paint colors.

Details

The bracket securely mounts beneath the worksurface and directly to the PET panel, providing enhanced stability and support while reducing panel movement.

Features

- Creates additional space behind the panel for cable management and wire routing.
- Improves compatibility with monitor arms and power accessories.
- Provides greater panel stability and support compared to the previous bracket.
- Two-piece design securely attaches to both the worksurface and PET panel.
- Bracket available in black only.
- Optional cover conceals hardware for a cleaner, more refined aesthetic.
- Cover available in standard AIS paint colors.
